

Fees

Our fees for the annual audit report will be **AED 3,500** payable at 50% on commencement of audit and the balance on submission of our draft report for approval respectively. The fee is payable even if our opinion is unacceptable to you, or is disputed by you, in the event that our opinion carries an emphasis or qualification or we issue a disclaimer of opinion. The above fee includes a discount of AED 3,500 on the normal fee of AED 5,000 that we would usually charge for an audit of the books of an entity having your scale of operations and nature of business.

VAT will be charged in addition to the audit fees mentioned above.

Note: The scope creep clause is a part of our standard "letter of engagement" for audit and all other engagements.
